

## Scope of Accreditation For Caribbean Cement Company Limited

Rockfort, Kingston, Jamaica  
Andrew Stephenson  
1-876-367-5141

In recognition of a successful assessment to ISO/IEC 17025:2005, accreditation is granted to **Caribbean Cement Company Limited** to perform the following tests:

Accreditation granted through: **December 10, 2018**

### Testing – Construction Materials

| Technology                             | Range, Where Necessary | Methods Used | Product Types | Remarks |
|--|------------------------|--------------|---------------|---------|
| Compressive Strength                   |                        | ASTM C109    | Cement        |         |
| Time of Setting by Vicat Needle        |                        | ASTM C191    | Cement        |         |
| Normal Consistency                     |                        | ASTM C187    | Cement        |         |
| Air Content                            |                        | ASTM C185    | Cement        |         |
| Autoclave Expansion - Soundness        |                        | ASTM C151    | Cement        |         |
| Flow                                   |                        | ASTM C1437   | Cement        |         |
| Fineness by Air Permeability Apparatus |                        | ASTM C204    | Cement        |         |
| Chemical Analysis                      |                        | ASTM C114    | Cement        |         |
| Chemical Analysis – Loss on Ignition   |                        | ASTM C114    | Cement        |         |

Notes:

- 1) This laboratory does not offer commercial testing services.
